

Nagarro for SAP: A High Quality and Cost Effective Partner

Address functional challenges and prevent cost overruns.

Nagarro's SAP consultants match and exceed the quality of those from big name consulting firms. Yet, by using a judicious mix of onsite and offshore development, Nagarro can help you gain the maximum ROI from your SAP deployment.

In particular, Nagarro can:

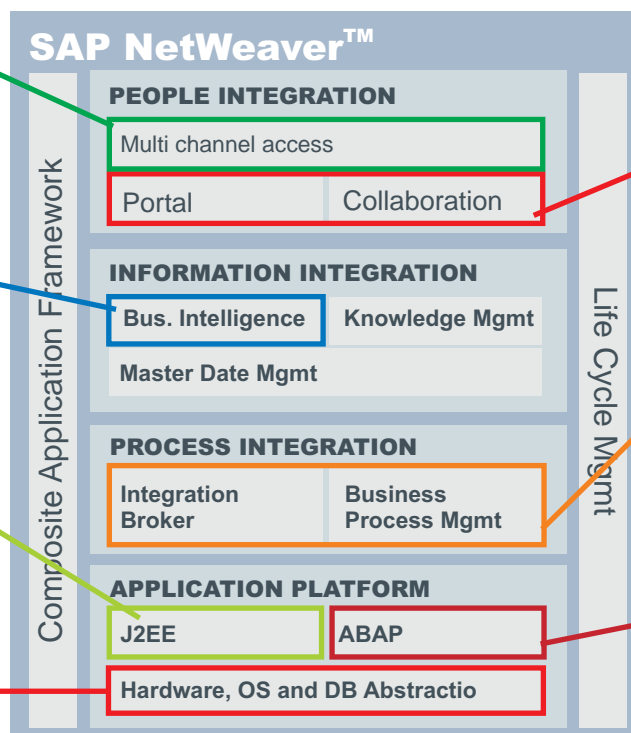

- Develop flexible collaborative applications for your unique business, based on the SAP NetWeaver platform with integration to SAP ECC and SAP Business Suite.
- Build rich reporting and datawarehousing solutions based on the SAP BW platform
- Enable intuitive and streamlined web based SAP access through SAP Portals and SAP XI
- Provide SAP NetWeaver architecture, design and development services.
- Deliver Remote SAP development services for SAP Functional, ABAP, BASIS and SAP NetWeaver.

- Mobile Applications

- SAP and nonSAP Integration
- Migration from Other EAI
- SAP XI Landscape Creation & Transport

- RICEF Development
- BSP, ABAP WebDynpro
- SAP Workflow
- ALE/IDOC Integration
- eCATT. LSMW.
- SAPscript/SmartForms
- Upgrade

Intuitive & Simplified SAP Transactions without SAPGUI

- Create simplified user-friendly SAP applications that enable browser based web access to your SAP systems.
- Provide your external business partners, suppliers and associates a secure and controlled SAP access without SAPGUI.
- Adobe Forms based reporting and data entry to minimize data errors.

Advanced Datawarehousing & Reporting

- Streamlined Reporting across SAP ERP, Excel and other databases using SAP BW.
- Dashboard view of Key Performance Indicators, email broadcast and notifications of operational statistics

ABAP Development

- RICEF development for enhancements, new development and maintenance.
- ALE IDOC, BAPI/RFC development.
- Advanced ALV reporting. SmartForms and SAPscript development.
- ABAP WebDynpro and BSP development to web-enable SAP transactions and reports.
- SAP Enterprise Services identification, design and development.

SAP Workflow based Streamlined Approvals

- Create workflow based approval processes to streamline core processes such as purchase order approvals and financial approvals.
- Document routing, auditing and archiving solutions.

Mobility solutions for accessing SAP

- Mobile access to your SAP system through blackberry and handheld devices.
- SAPConsole development for warehousing and asset management scenarios.

Enterprise Application Integration through SAP XI

- Seamless backend integration of SAP systems with your nonSAP and legacy applications through SAP XI
- Integrate SAP XI with your current middleware (SAP BC, TIBCO...) to leverage current investments.

Industrial Automation Integration with SAP

- Collect industrial automation data from shop floor machines; automatic update of key metrics in SAP ERP such as production runs and quality rejects.
- Integrate HR data such as attendance through integration of smart attendance readers with SAP HR.

Remote SAP Support

- Efficient monitoring and management of your SAP landscape through SAP Solution Manager.
- Comprehensive BASIS support across all activities such as transports, security, performance, batch jobs and backups.
- Augment your IT team with comprehensive support in SAP Functional, SAP Technical (ABAP development), BASIS support and SAP NetWeaver development.
- Remote enhancement and development services in ABAP and SAP NetWeaver.
