

## Digital Transformation through Enterprise Architecture

### A MODERN PERSPECTIVE

As organizations adopt digital, EA is far more critical than ever before. EA approaches need to adapt digital/API economy now and bridge the gaps between business strategy and execution.

# DIGITAL NIRVANA

### WHO

#### CAN HELP US WITH WHAT?

Who can help with gathering insights?  
How do we bring various partners together?

### WHAT

#### DO WE WANT TO ACHIEVE?

What is our vision & mission goals?  
What are the short, mid & long term objectives

### WHY

#### DO WE NEED TO TRANSFORM AND WHOM ELSE DO WE NEED?

Why did we see a need for such transformation?

## SERVICE OFFERINGS

We help organizations confidently address their business challenges and ensure their technology core is agile and effective. We help them cut through the noise of fleeting technology trends to create enduring results.

\*Final team size may vary depending on scale and complexity of the scope. This only represents strategy team excluding implementation team sizes which varies depending on size of each EA initiative

## PLACES WE CALL HOME

Established in 1996, Nagarro began as a dream of a few friends who wanted to create a company with a difference – a company that focused on “strategic differentiation via technology” initiatives rather than routine IT operations. Even as we grew, we maintained an orientation towards new technologies, complex applications, and decision sciences. Ever since, we have enjoyed working extensively across the globe.

Today we are more than 4500 experts across 16 countries. Together we form Nagarro, the global services division of Munich-based Allgeier SE.
