Nagarro and Databricks

Enabling innovation and growth with modern data platforms

As a leading Databricks consulting and system integrator partner, Nagarro provides a unified, cloud-based data, analytics and AI platform that enables massive, scalable data engineering, and a collaborative data science solution. We empower our customers globally by providing quick access to impactful business insights, propelling their business growth.

By collaborating with Nagarro for Databricks integration, you upgrade your data platforms to gain a competitive edge in your industry. Our solutions are based on breakthrough thinking that aims to unlock limitless possibilities for you, with right integration.

To learn more about how we can help you achieve your data, analytics and AI goals, drop us an email at **data.analytics@nagarro.com**

Embrace business transformation and growth by leveraging Nagarro's expertise in:

- Enterprise data platforms
- Lakehouse integration
- Big data analytics
- Real-time analytics and reporting
- Data science and machine learning

How can we engage with you?

Consulting
We work with you to understand your vision, ideate, and define a roadmap to deliver the desired business outcomes.

Fully managed projects
We offer end-to-end project management, ensuring the success of your data, analytics and AI initiatives.

Rapid prototyping
We design a priority-based solution scope that delivers the best cost output within 2-4 weeks.

Augmenting team capacity and capability
Our experienced technical/ domain experts work as an extension of your team, augmenting your capacity and capability to deliver successful outcomes.

### Rapid deployment with accelerators
We leverage our Data, Analytics and AI accelerators to deliver customized use cases faster and at reduced costs.

Maintenance and support
We cater to changes/configurations, ensuring zero disruptions, optimized performance, and minimal costs.

Success stories

Modernized data platform for an automobile business with advanced analytics

Nagarro helped a major international automobile company boost their data platform scalability and broaden data, analytics and AI offerings by migrating their legacy enterprise data warehouse to the multi-cloud platform. We successfully assisted the migration to a lake house platform using Databricks, ensuring improved customer reach and reduced maintenance costs.

Empowered a logistics business with data driven decisions

Nagarro helped one of the largest logistics companies build a secure and scalable enterprise data platform using Databricks. A centralized enterprise data platform featuring a secure and scalable cloud lakehouse solution and laid the foundation for advanced analytics. The platform allowed the client to leverage ML and AI algorithms for real-time insights and data-driven decisions.
